

G. R. Ogden, of Shinnston, W. Va., says: "I have used AVALON FARMS HOG-TONE 56 days and I think it is the best medicine I ever used. I have two pigs 4 months and 3 days old that weigh 360 pounds, one 6 pounds heavier than the other. They are 100 pounds heavier than my neighbor's 2 of the same litter and feed."

This is the experience of a typical user of Hog-Tone. There are hundreds and hundreds of letters on file at the Avalon Farms Company's office from nearly every state in the Union, all telling of big improvements in hogs, and in hog profits through the use of Hog-Tone, the scientifically prepared Hog Conditioner, Fattener and Worm Remover. Hog-Tone is sold on

60 days' Free Trial under an absolute money-back guarantee. Come in the store and tell us how many hogs you have in your herd and we will give you enough Hog-Tone to treat all of them 60 days. You don't have to pay for it unless you are absolutely satisfied. The decision is left entirely to you.

Are You Open-Minded?

The average American is open-minded.

American business is conducted by true Americans of vision, open-minded men who believe in their country and strive to meet their country's needs. The men in the packing industry are no exception to the rule.

The business of Swift & Company has grown as the nation has progressed. Its affairs have been conducted honorably, efficiently, and economically, reducing the margin between the cost of live stock and the selling price of dressed meat, until today the profit is only a fraction of a cent a pound—too small to have any noticeable effect on prices.

The packing industry is a big, vital industry—one of the most important in the country. Do you understand it?

Swift & Company presents facts in the advertisements that appear in this paper. They are addressed to every open-minded person in the country.

The booklet of preceding chapters in this story of the packing industry, will be mailed to you on request.

QUALITY AND SERVICE

BLOW IT ALL IN
When Congress authorized the President to take over the railroad it was the time of government operation to be for the period of the war and for 21 months thereafter. To provide a means of financing such operation a revolving fund of \$500,000,000 was set aside for the use of the Director General in supplying funds to needy roads for maintenance and equipment. It was supposed by the legislators that that huge sum would be ample to meet all requirements; in fact it was anticipated that long before the exhausted some of the first loans made would be coming back into the Treasury, and the fund would in truth revolve.

But instead of carrying the roads through a period of years, as contemplated by the formers of the legislation, the revolving fund is practically exhausted in the very first year of Federal administration. The Director General in his annual report admits that over \$453,000,000 of that amount has been expended already. Not only that but \$235,000,000 has been taken from surplus receipts of railroad and express companies and loaned back to the roads in addition to the millions from the revolving fund. Of course repayments to the Government for its loans from the revolving fund, if they are ever made, must come from surplus earnings, but when those earnings are diverted from that purpose and turned into further loans the result is only to sink the roads deeper into financial mire.

Don't forget the dance at the Fireman's Hall, Friday evening January 24th.

SOLDIERS LETTERS

(Continued from page one)

Dear Folks at Home:
I am feeling fine and hope these few lines find you all the same. I got the Christmas package you sent me and it was all O. K. I wish I could get a package from home a little oftener. I will not be able to send you any Christmas presents but will send you my picture in a couple of days. I am going down to Tours tomorrow night and get them. I got the letter Guy and Grace wrote and tell them I will write them a line in a few days.

I suppose it is getting pretty cold around home by this time. It has not been very cold here yet, but we sure get plenty of rain and have lots of mud.

I bet you are wondering when I am going to get home, well I am too but I do not know. I hope it is before many more months. I am going to try and get a seven day leave and go to Nice the first of the year. I am going to try and see a little of this country while I am over here, am going to try to see Paris if I can.

BETTER THAN CALOMEL
Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dizziness" and that hazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lumpy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 30c and 25c a box. All druggists.
